VISION IN INNOVATION

## VINNO6

### Innovation And Reliability

VINNO6, the innovative portable color ultrasound system brings to you the advanced technology of our original RF ultrasonic metadata platform, creating a light, intelligent, and powerful tool.

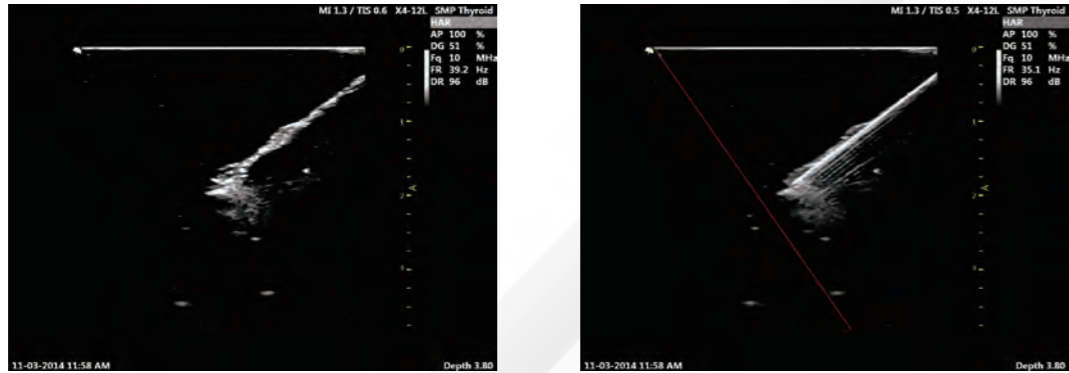

- » The unique RF platform results in much better image quality in resolution and contrast.
- » Xcen high frequency technology adds more wideband than a normal probe to improve resolution and contrast for better diagnosis.
- » Pure Wave Probe Technology improves the penetration and Color sensitivity.
- » Perfect 3D/4D technology with STIC, Mcut and Auto NT, fulfill all obstetric application.
- » HQ 3D image: provides high definition 3D image quality.
- » Smart touch user interface fully utilizes touch panel possibility for easy operation, such as rotation of 3D rendering image and comment.

### Interventional Room/ Operating Room

» Needle Enhancement Technology, display the needle tips clearly, puncture accurately.

» Super sensitive touch screen can also be operated with medical gloves.

» Full Screen Technology

### Musculoskeletal Physiotherapy

Thanks to VTissue technology, up to 23MHz Xcen linear probe and the unique RF platform, VINNO6 provides excellent clinical imaging.

Tendon

Phalanx

### ICU/ CCU

Specific pure wave probe technology provides better penetration and color sensitivity, and TView technology improves resolution of the near field image.

### Emergency/ Field/ Stadium

- » Intelligent teaching process provides comprehensive and professional guidance of operation.
- » Convenient transfer function ensures fluent information and supports remote diagnostic solutions at the same time.
